Heung Joey Han

6010 Weddington Dr, Cumming, GA, 30040 | (470)-647-6815 | heungjhan@gmail.com | mellow.tulumba-195813.netlify.app

Profile

Friendly and engaging full-stack web developer. Expertise in both front-end and back-end development, and is skilled in a variety of programming languages, libraries, and frameworks. Passionate about creating high-quality, responsive, and user-friendly websites and applications.

Skills

- Front-End: HTML, CSS, JavaScript
- Back-End: Node.JS, MySQL, MongoDB
- Tools: Git, GitHub, Heroku, Render, VSC
- Frameworks: Bootstrap, Tailwind, React

Projects

YELP CAMP | WEB APPLICATION

An application that is designed to be a platform for users to create and discover camping sites around the world. It allows users to browse through a list of campgrounds, view details of each campground such as location, amenities, and reviews, and add their own reviews and ratings. Users can also create their own profiles and leave comments on other users' reviews.

- Built using a variety of technologies, including Node.js and Express.js on the back-end, HTML, CSS, and JavaScript on the front-end, and MongoDB for data storage.
- Application uses basic authorization and permissions as well as handing errors and validating data.
- Handles vulnerability with cross site scripting and sanitizing HTML with JOI.

Experience

CLINICAL LABORATORY SCIENTIST | FEB 2021 | FLOW HEALTH | ATLANTA, GA

- Providing high-quality molecular testing.
- Statistical analysis of Ct values generated during real-time PCR.
- Developing and maintaining accurate and detailed records of test results in a database.
